VIETNAM'S INTERNATIONAL RENEWABLE ENERGY AND ENERGY EFFICIENCY EXHIBITION RE & EE VIETNAM 2018

12 - 14
Sept, 2018

Saigon Exhibition & Convention Center (SECC)
799 Nguyen Van Linh, District 7, Ho Chi Minh City

Organiser

UBM

Co-located Events:

Vietnam has initiated a shift from high emission fossil fuels to renewable energy, creating new business opportunities and technology needs in the fledgling renewable energy sector. I believe RE and EE Vietnam 2018 will serve as the best connector and channel grid for technology and business exchange in Vietnam's new renewable energy sector.

Mr. Huynh Kim Tuoc,
Director, ECC-HCMC

IMPROVING VIETNAM'S ENERGY MIX

Vietnam's International **Renewable Energy and Energy Efficiency Exhibition – RE & EE Vietnam 2018** will hold its 4th edition at Saigon Exhibition and Convention Center (SECC) from **12 to 14 September 2018**, welcoming industry professionals and enterprises in this sector.

To further enhance its value proposition, RE & EE Vietnam 2018 will be co-located with **Electric & Power Vietnam (EPV)** in 2018. The combined event is now positioned as a one-stop technology and business marketplace to facilitate the development of energy technologies for industries and commerce, with RE & EE Vietnam 2018 focusing on renewable energy and energy efficiency technologies for Vietnam.

SECURE YOUR SPACE and meet the energy community at RE & EE Vietnam 2018 !

EXHIBITOR PROFILES

Renewable Energy

Solar: Manufacturers of Modules and Inverters, PV Cells, Batteries and Electronic Metres, Storage Tank and Solar Collector, Piping, Solar Heat, Solar Water Heater, Application and System and Heat Exchangers

Waste to Energy (as a solution)

Combustion, Boilers, Turbines, Engines, Heat Exchangers, Gas Cleaning Equipment and Incinerators

Biogas

Solution Providers for Agro Industry, Biogas Digesters, Turbines, Blower, Storage, Gas Engines and Gas Cleaning Equipment.

Biomass

Combustion and Gasification, Heat Exchangers, Generators and Gas Cleaning Equipment

Wind & Hydropower

Manufacturers of Power Business and Utilities, Wind and Hydropower, Turbines, Electronic Controller, and Energy Efficient Appliances, Measurement and Control.

Energy Efficiency

Automation Equipment, Advanced Boilers and Furnaces, Building Management Systems, Carbon Management, Heat and Power, Compressed Air Systems, Electronics Equipment, Energy Management Systems, Energy Saving Systems, HVAC System and Control (Heating, Ventilating, and Air-conditioning), Lighting Systems (LED and Sky Lights), Monitoring and Measurements, Motor and Drive Systems, Power Inversion, Power Generation, Process Control, Safety Equipment

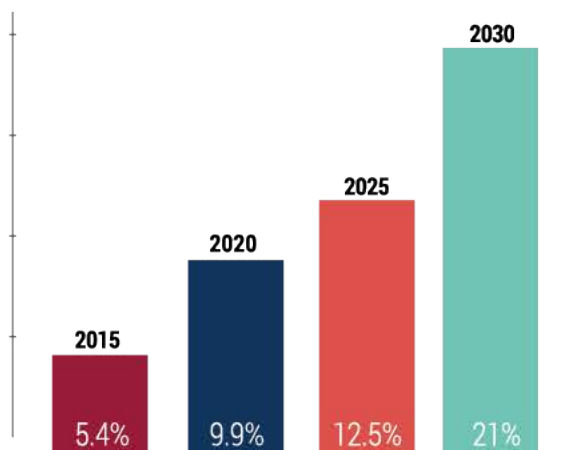

Vietnam is one of the new potential markets for developing renewable energy and efficient waste management which are both environmentally friendly and profitable. With over 20 years working in these sectors and first reference to Vietnam under construction, we joined this event to introduce the Finnish technologies, products and services to Vietnam. It's also an important opportunity to network with the local investors, owners and government officials.

Mr. Mikko Saalasti,
Head of Renewable Energy,
Doranova Oy.

Vietnam: Current Opportunities and Future Outlook

Foreign Direct Investment driven industrialisation (manufacturing) and increasing consumer consumption has been the driver of rising power consumption in Vietnam, growing by 10-12% annually through 2020 and by 8% annual growth projected from 2021- 2030.

To satisfy electricity demand, the revised National Development Plan VII (revised PDP7) sets a target for electricity production and import reaching 265-278 billion kWh in 2020; 400-431 billion kWh in 2025; and 572-632 billion kWh in 2030.

The structure of power source (the revised PDP7)

JOIN US and GAIN HIGH VISIBILITY with

Insightful Marketing

Integrated campaign from online to off-line, attracting the right industry visitors and giving exhibitors opportunities to create brand awareness and promote their products via advertising.

Showcase Stage

Step up and showcase your products, solutions and innovations to thousands of industry fellows and generate more sales leads.

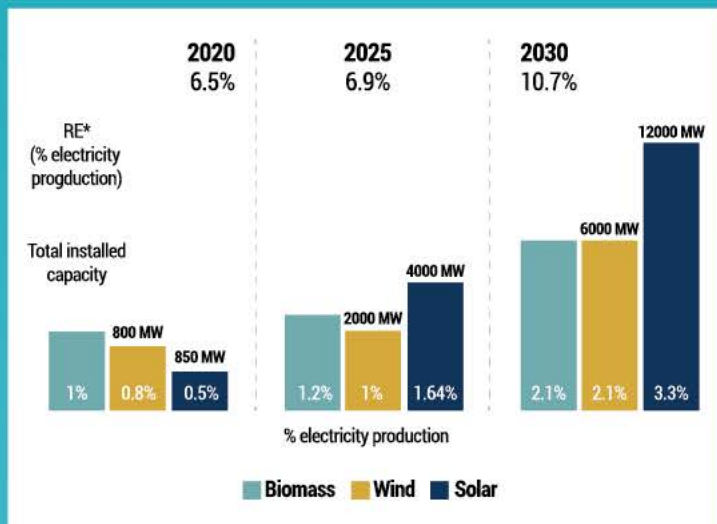

Technical Seminar

A tailor-made forum allowing exhibitors to share their new solutions, technologies and practical case -studies, as well as to get the latest update from the market.

Renewable Energy and Feed in Tariffs

According to the revised PDP7, renewable energy (wind energy, solar energy, and bioenergy) will be prioritised.

Electricity of Vietnam (EVN) purchases all power from renewable projects. Tariff is currently set for biomass, wind, waste-to-energy, and solar projects

- Wind – VND equivalent of 7.8 US cents/kWh
- Solid waste-to-energy – VND equivalent of 7.28 US cents/kWh to 10.05 US cents/kWh
- Solar – VND equivalent of 9.35 US cents/kWh
- Biomass – VND equivalent of 7.34 US cents/kWh to 7.55 US cents/kWh
- Small hydropower (below 30 MW) – Avoided cost tariff is set at around 5 US cents/kWh, depending on season and daily peaks.

About UBM Asia

UBM

Owned by UBM plc listed on the London Stock Exchange, UBM Asia is the largest trade show organiser in Asia and the largest commercial organiser in China, India, Thailand and Malaysia. Established with its headquarters in Hong Kong and subsidiary companies across Asia and in the US, UBM Asia has a strong global presence in 24 major cities with 32 offices and 1,300 staff.

With a track record spanning over 30 years, UBM Asia operates in 19 market sectors with 230 events, 28 targeted trade publications, 18 round-the-clock online products for over 2,000,000 quality exhibitors, visitors, conference delegates, advertisers and subscribers from all over the world. We provide a one-stop diversified global service for high-value business matching, quality market news and online trading networks.

Co-located Event

In 2018, Renewable Energy and Energy Efficiency Vietnam (REEE) will co-locate with Electric & Power Vietnam (EPV), offering a comprehensive electrical engineering and energy showcase, from multi-source power generation, distribution and transmission, to associated automation and process instrumentation for power plants and factories in general. EPV has grown steadily over the last 6 editions and remains the premier industry trade platform for professionals in this sector. Synergies gleaned from the new co-located event - REEE18 will provide an expanded exhibition product scope which will enhance the experiences of attendees from Vietnams electrical power and related process sectors.

Venue

Trung Tâm Hội Chợ và Triển Lãm Sài Gòn (SECC), 799 Nguyễn Văn Linh, TPHCM

BOOK Your Stand Today!

Space Only:
US\$ 380/Sqm

Shell Scheme:
US\$ 445/Sqm

Shell Scheme inclusive of :

- Needle-punch carpet
- White polyester laminated panels for back wall & two side walls and fascia board
- Adhesive vinyl letters for exhibitor's name and booth numbers on the fascia board
- Fluorescent lights (40 watts)
- Information counter
- Folding chair
- Waste basket

Sponsorship Opportunity

Take advantage of our sponsorships and event marketing to set you apart from competitors!

We offer a range of sponsorship packages customised to cater to any budget and meet your marketing objectives.
