

INTEX

The 14th China International Exhibition of Metropolitan Railway Transportation 2019

The China International Railway Conference for Urban & Intercity Transit 2019

November 12th – 14th 2019 | Shanghai, China

www.railmetrochina.com

Leading the Way

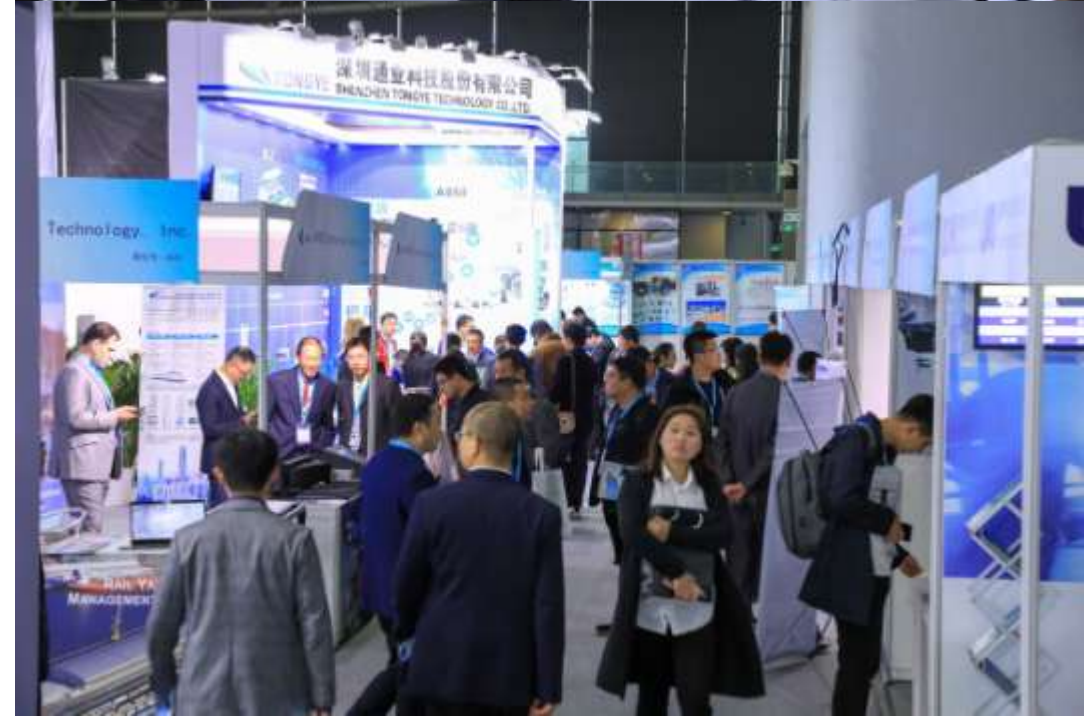

The Asia Pacific's Flagship Urban Rail Transit Industry & Supply Chain Show

Rail + Metro China 2019 | CIRC 2019

Launching in 2002, Rail+Metro China has since become one of the largest platforms for trade, procurement and promotional activity in the metropolitan and inter-city rail transit industry in China and the Asia-Pacific region.

Rail+Metro China is dedicated to providing the space for business to explore the latest industry innovations, trends and developments, offering a fully integrated, comprehensive platform for the public transportation industry.

Organizational Structure

Supported by:

The Department of Transportation Services , Ministry of Transport, P.R. China.

The Department of Basic Industries, National Development and Reform Commission, P.R. China

Shanghai Municipal Transportation Commission

With the Guidance of:

China Association of Metros

Organized by:

Shanghai Shentong Metro Group Co., Ltd.

Shanghai Intex Exhibition Co ., Ltd.

Key Strategic Partners:

China International Engineering Consulting Cooperation

Southwest Jiaotong University

16 Editions, from 2002

20,000+ Square Meters

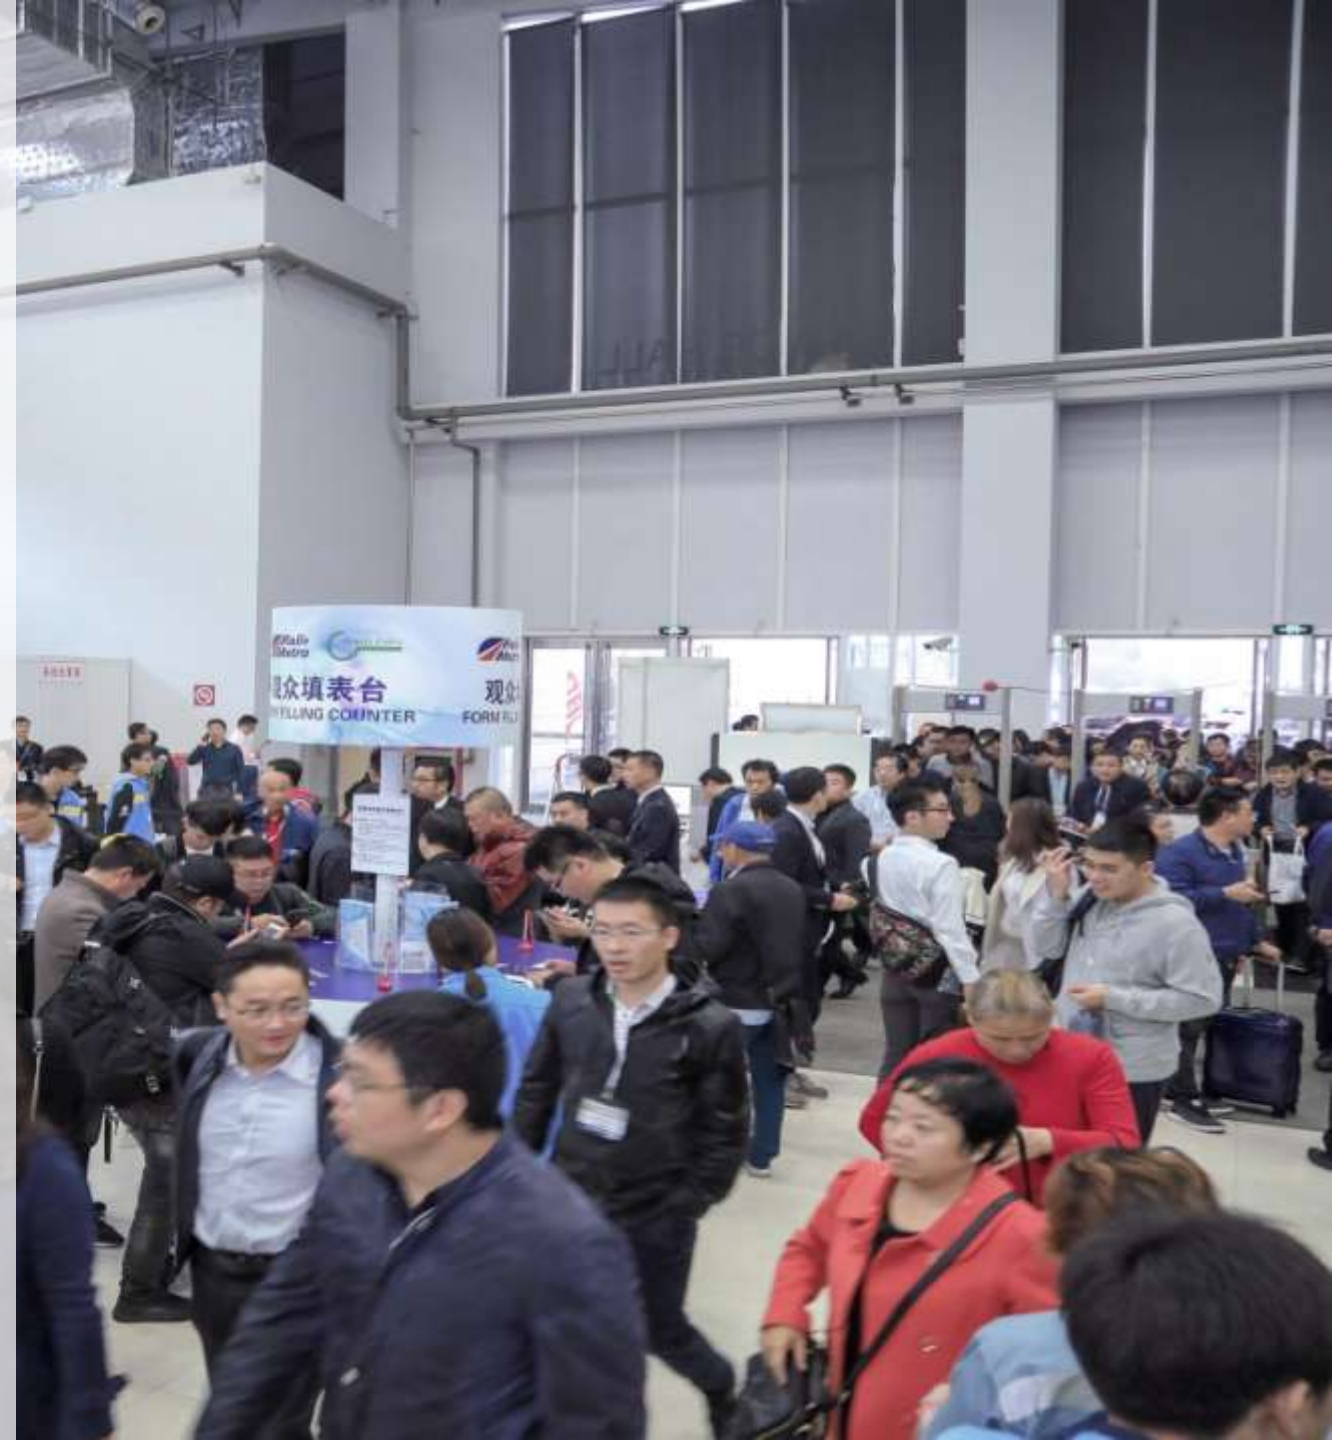

200+ Exhibitors

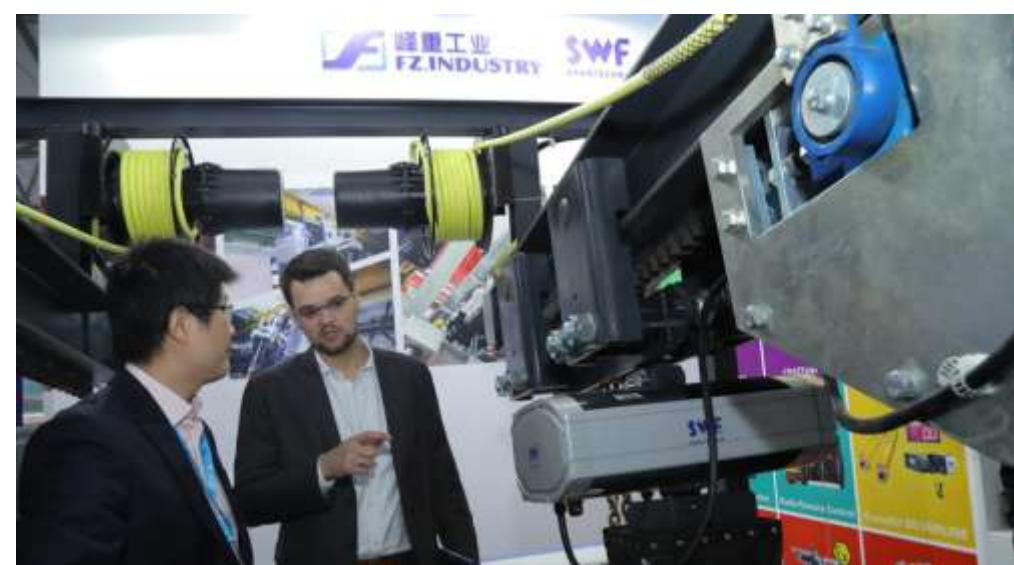

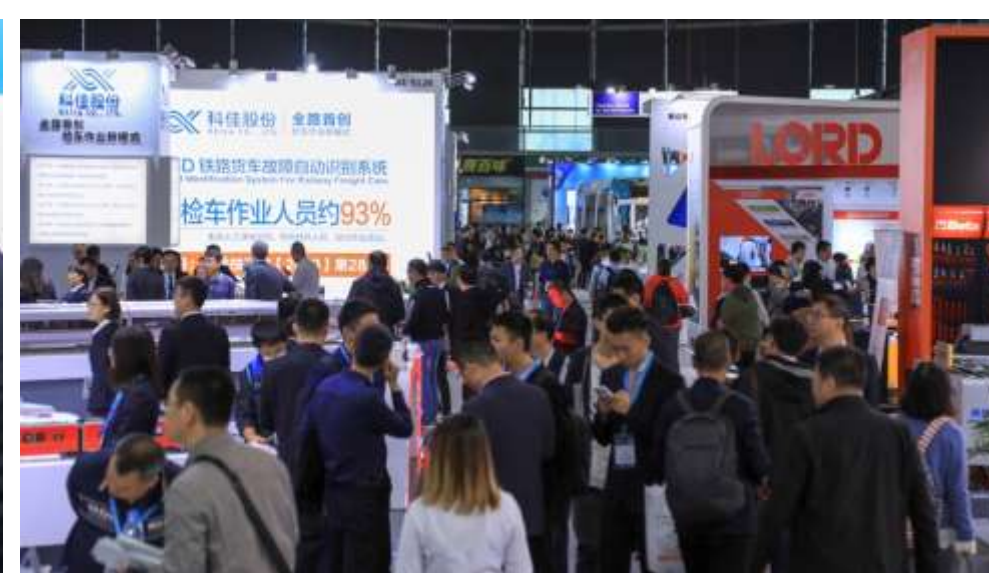

33+ Countries and Regions

23,698 Visitors

8 Special Exhibition Areas

Including **400+** Product Lines

Rail+Metro China 2018 hosted over **200 exhibitors** from **16 countries**, with a show floor spanning **20,000 square meters**. The exhibition attracted a total of **23,698 professional industry visitors**, including delegations from the public transport administrations and companies of over **30 cities**, including light rail, metro and trams, as well as more than 10 regional railway units. In excess of **1,000 international visitors** from at least **30 countries** attended, including government delegations from Russia, Germany, Thailand and Korea.

9 Special Exhibition Areas

Exhibits included over **400** new product lines and covered 'Rail-bound Vehicles'; 'Subassemblies & Components'; 'Signaling, Communication & Network Technology'; 'Interiors'; 'Energy & Electro-technology'; 'Maintenance & Repair'; 'Design & Consultation'; 'Platform & Public Services'; and 'Infrastructure & Engineering Services'.

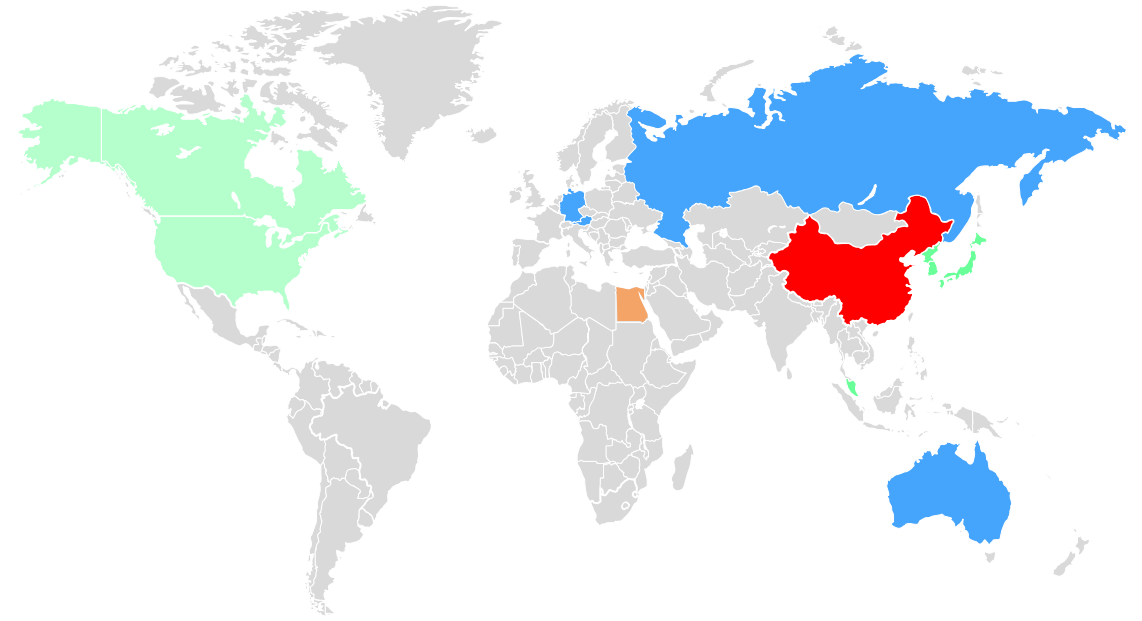

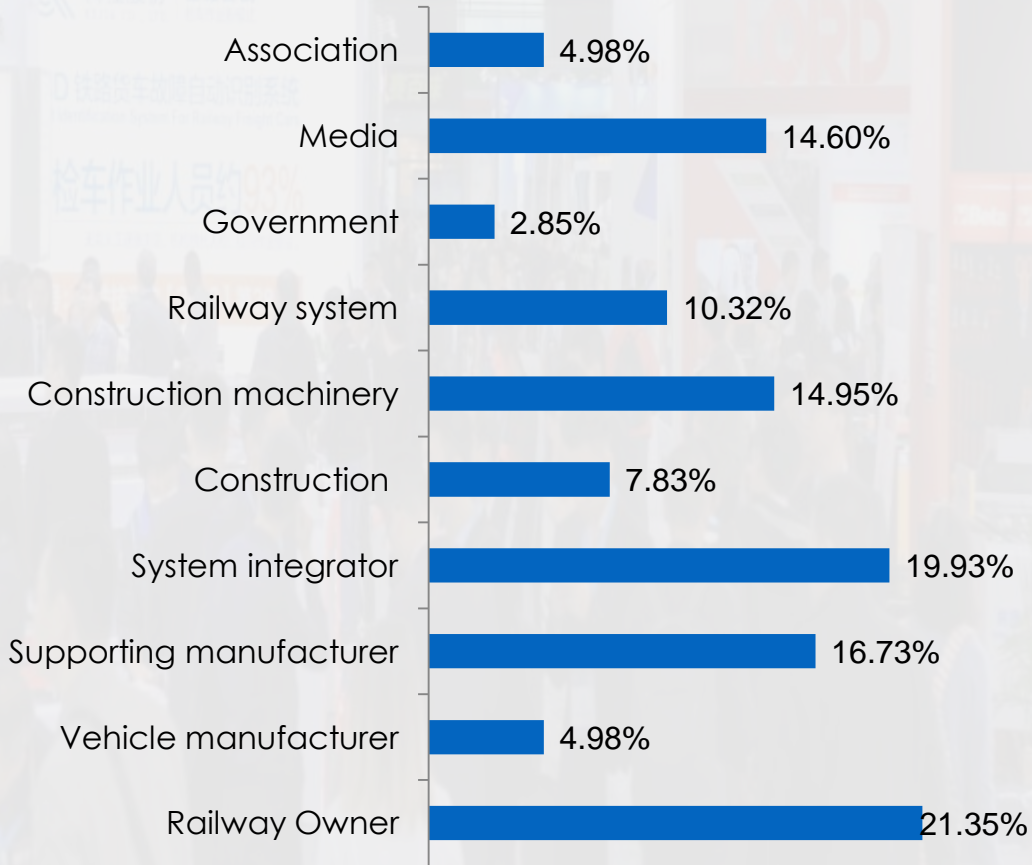

This year the show attracted exhibitors from across the globe, notably including Austria, Canada, the Czech Republic, Denmark, France, Germany, Italy, Japan, Korea, Spain, Switzerland, the United Kingdom and the United States.

Rail+Metro China is a platform for governments, transport network operators and transit supply chain businesses to come together

Over 30 Major Rail & Metro Operators visited the Show

Domestic Visitor Analysis

23,698 Visitors from at least **33** Countries

Promoting the “Belt and Road Initiative” and becoming a high-speed trading platform for rail transit companies to enter the global market

China Railway Market Highlights

Urban Planning 2018 - 2035

High Speed Rail Expenditure 2019

 ¥1.4 trillion on 35 Major Projects

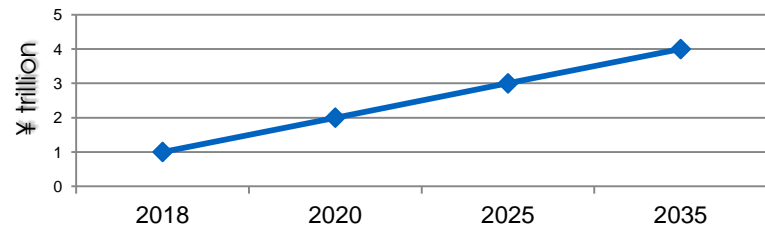

Urban Metro Expenditure 2019-2025

 ¥680 billion per year on 8000km of Track in 50 Cities

Intercity Railway Expenditure 2019-2035

 ¥600 billion per year on 6800km of Track connecting 10 Metropolitan Areas

Railway Investment

*all figures given in Chinese Yuan

Previous Exhibitors And Sponsors

Exhibits Profile

• Rail-bound Vehicles

Urban/Inner-city rail cars (subways, light railway, monorails, modern trams); Mid-low speed magnetic levitation trains; PRTs (personal rapid transit); ETTs (evacuated tube transport); Straddling buses; Other rail transit vehicles for public and freight transportation

• Subassemblies and Components

Bogies; Traction systems; Car bodies; Connection systems; Couplers; Lighting systems; Locking systems; Passenger counting systems; Wheel sets; Lubricating systems; Composite materials; Insulation materials; Adhesives; Lubricants; Rubber-moulded articles; Sealing materials

• Signaling, Communication & IT Systems

Signaling systems; Private network communication systems; LAN communication systems; Wireless communication systems; Systems integration; Train control systems; Scheduling systems; Crossing systems; Remote control systems; Communication and signaling modules; Infrastructure/Facility management systems

• Interiors

Driver consoles; Lamps; Toilet systems; Seats and seating systems; Air-conditioning systems; Emergency systems; Door systems and accessories; Flooring systems; Heating systems; Surveillance systems; Food and Beverage (F&B) accessories; Kitchen equipment

• Maintenance and Repair

Driving simulation systems; Bogie & wheel set examination and repair systems; Catenery inspection vehicles; Rail-defect detector cars; Rail grinding wagons; Un-wheeling repair platforms; Air-conditioning cleaning equipment; Medium/large road maintenance equipment; Power supply maintenance equipment

• Energy/Electrotechnology

Driving systems and electronics; Hydraulic drive systems and accessories; Pneumatic devices; Traction motors; Power supply systems; Vehicle control systems; Field Bus Modules (FBMs); Cables and lines; Batteries and chargers; Isolate devices; Safety systems; Transformers; Centenaries; Switch cabinets and accessories

• Platform and Public Services

Platform shield gates; Passenger information systems; Automatic fare collection systems; Fire alarm systems; Fire extinguishing systems; Advertisement systems; Clock systems; Radio systems; Elevators/Lifts; Passenger counting systems; Industrial doors; Fire proof doors; Customer services; Interactive voice response systems; Monitoring systems; CCTVs; Security systems

• Infrastructure/Tunnel Engineering

Construction machines; Parts and components; Track products; Overhead line devices; BIM design software; Finishing equipment; Building and other materials; Maintenance; Safety products; Communication systems; Services and consulting

Key Buyer Delegations

The China International Railway Conference for Urban & Intercity Transit 2018

150+Speakers | 2000+Delegates | 1 Opening Forum | 8 Parallel Conference Platforms

- The Urban Commuter Railway Development Forum
- The Metropolitan Rail Development Strategy Forum
- The 6th Rail Transit Vibration & Noise Control Forum
- The Urban Rail Transit Construction Forum
- The 5th Railway TOD & PPP Development Forum
- The Medium-Capacity Transit Transport Forum
- The 6th Tram and Rail Transit Diversification Forum
- The Rail Transit Electric-supply Intelligence Forum
